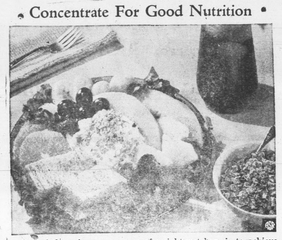
Concentrate For Good Nutrition



One of the primary concerns of weight-watchers is to achieve a proper balance of nutrients in daily meals without exceeding calorie requirements. Many find that a pleasant way to good nutrition is to complement low-calorie dishes with ready-to-eat nutrition concentrate.

Concentrate, high in protein with moderate vitamin and mineral fortification, is virtually fat-free. Its unique flavor and crispness blend appetizingly with such popular diet combinations as this fresh fruit and cottage cheese salad plate. Whether Concentrate is eaten as a ready-to-eat cereal, or added to other foods either in preparation or at the table it can be depended upon to supply essential nutrients with minimum calories.

Activities At Memorial

. . . Rev. Robert R. Doverspike

Rev. Robert R. Doverspike, Wisconsin, a minister in the Evangelical United Brethren Church, joined in 1946 by the union of the Church of the United Brethren in Christ and the Evangelical Church. These denominations have always been characterized by a warmth of Christian Experience, and have made a rich contribution to the development of Christianity in America and throughout the world. They are closely akin to Methodist doctrine and policy. There are several areas in the United States and several in areas in other continents and sections of the world.

Brother Doverspike will preach at the 11 o'clock service next Sunday and at seven - forty-five in the Robinson Funeral Home will begin a series of talks on Personal Evangelism for the Evangelistic Visitors who will contact the homes of Methodist Persuasion during the following week.

He will preach in Special Revival Services from June 26 at the morning and evening services through July 3 at both services.

Services will be held in Memorial Church each evening of the week, beginning promptly at 7:30 P. M., with song service led by the Revival Chorus. The entire community is cordially invited to attend these services and help to strengthen the moral tone of our town and surrounding territory.

These Evangelistic Services are being planned by the Commission on Membership and Evangelism. Mrs. R. G. Holt, chairman Mrs. G. E. Smith, vice-chairman; and Fred Conner, secretary. The following members of the Commission are being assigned specific duties and responsibilities: Mrs. R. A. Berzdoll, Mrs. O. F. Davidson, Mrs. H. D. Fulks, Mrs. I. B. Gendrich, Burke Gall, Mrs. Helen Gunter, Mrs. J. T. Irby, Mrs. J. E. Jamerson, Dr. S. R. Lawson, Percy Lewis, Mrs. C. T. Moses Jr., C. W. Smith, Mr. and Mrs. J. A. Smith, Judy Smith, and Mrs. M. L. Webb.

REVIVAL AT OLD CONCORD PRESBYTERIAN CHURCH

A revival will be held at the Old Concord Presbyterian Church, at Spout Spring, June 19 to 24 each evening, at 7:45 o'clock. The pastor, Mr. James Wood, will conduct the services. The public is cordially invited to attend.

REEDY SPRINGS REVIVAL

Revival services will start at the Reedy Springs Baptist Church Sunday, June 19. There will be a service each evening at 8:00 o'clock, through Saturday night.

The Rev. O. G. Barnett, pastor, will do the preaching, and music will be furnished by the church choir and invited guests.

A warm welcome to all visitors.

VACATION BIBLE SCHOOL

A community Vacation Bible School for the communities of Pamplin, Piney Ridge, and Hixburg, will observe Preparation Day this Saturday, June 18, from two to four o'clock, in the Elon Baptist Church, Pamplin, where the regular school will be conducted for two weeks commencing Monday, June 20. Hours are from 8:30 to 11:30 Monday through Friday each week. Boys and girls from four through sixteen years of age are invited.

Participating churches, in addition to Elon Baptist, are the Presbyterian and Methodist Churches in Pamplin, and the Methodist Church at Piney Ridge. The Rev. John Leslie Hart is serving as principal of the school. Superintendents and workers are drawn from all participating churches.

Red Cross Gives Quota For Chapter

The Appomattox Red Cross Chapter has been asked by the National Chapter to accept a quota of 5 children's coat style heavy wool sweaters in assorted sizes, of 2 to 6 years, for Chilean relief in the earthquake area.

As you know, it is now winter in Chile, and severe cold weather is expected in a few weeks. It is important that these disaster victims be given aid in their time of need.

It is also important that these victims be assured that we, their neighbors here in Appomattox, Va. have taken a personal interest in their plight. These items of clothing will be labeled as a gift from Appomattox Chapter.

The local Chapter organizations, church and civic groups, send in their donations so that we can at least meet our quota. We have some extra time to aid the earthquake and flood victims.

Please send your donations to either of the local banks. Anyone can ship these items to Chile.

BARLEY SUFFERS FROM LACK OF LIME

Barley seems to be more susceptible than other small grains to soil acidity, according to research conducted by agronomists at VPI.

This year, the agronomists report, several fields have been noticed where barley plants are, small and yellow, and not growing normally. Soil samples from these fields indicate a low pH and low calcium content. The conditions results in a greatly reduced yield.

The recommended pH for barley is between 6.0 and 6.5. Growers should have a soil test made on fields to be planted to barley this fall to be sure the pH falls in the recommended range.

It's time also to have soil tests made for fields where pastures are to be seeded this summer.

KNOW THE WEATHER

By E. H. Sims

What is corpuscular radiation? Does it affect the earth's weather to any significant degree?

Corpuscular radiation is, in the simplest form, a sort of electric current. It takes the form of charged particles which come into the earth's atmosphere from the sun. It is, then, a radiation from the sun.

Yes, corpuscular radiation plays a major role in determining the earth's weather, according to many able meteorologists.

It has the effect, when in an abundance, to heat the polar regions, as apart from the equatorial regions. This produces extreme contrasts in the weather within the short distances but generally makes for warmer, dried weather on most of the earth.

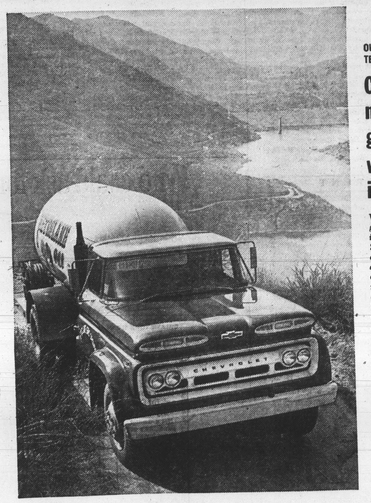
CHEVROLET



OUT WHERE THE COUNTRY CAN TEAR A TRUCK TO PIECES—

Chevy middleweights get 1/3 more work done in a day!

Where they used to deliver 2,300 gallons of liquefied petroleum gas in other trucks, Petrolane Gas Service of Long Beach, California, can now deliver 3,500 gallons a day! That's 7 days a week usually, over back trails and up into high rock country with maximum GVW loads. And with Chevy's Torsion-Spring Ride paving every foot of the way! "You don't get any more jolting on washboard roads than you do in a passenger car, or any sideway on curves," says driver Bernie Stone. "I used to take some rough roads at from 5 to 8 miles an hour. Now I can go 30 over them." Petrolane has over 200 Chevrolets hauling for them.

If you think we're excited about Chevy's independent front suspension, you ought to talk to the truck owners who are *profiting* by it. They'll tell you Chevy's torsion-spring design is the hottest thing to hit the industry since trucks began. Drive one—that's the proof, short and sweet.
